

DYNAVAC® MULTISURFACE VACUUMS

COMPACT MULTISURFACE VACUUM

Dynavac® compact multisurface vacuum features Mastercraft® proven durability, performance and reliability. Designed to be used with the multisurface floor machine for clean up of wood dust and concrete, reducing the incidence of airborne dust. Special coated filter and shaker system enables ongoing dust containment through extensive floor resurfacing operations.

TRI-MOTOR VACUUM

The DYN1540D Tri-Motor vacuum featuring Mastercraft® trusted performance is designed to operate in conjunction with the *Onfloor¹⁶* *Onfloor²⁰* *Swoop³⁴* polishing machines in order to maximize high airflow (CFM) while significantly reducing the incidence of airborne dust. The vacuum can be operated using 1 or 2 vacuum hoses. Special coated filter enables ongoing dust containment through extensive floor resurfacing operations.
